CLASSIFICATION AND RELEASE INSTRUCTIONS

(TS//SI//NF) The information contained in this document is classified TOP SECRET//SI//NF with DUCOM. (Only the originator may release the information). Only the information is to be released to Project Aquarius. No other government agency, to include the military, is to be given access to the information contained in this briefing. There are only two copies of this document. One is at Project Aquarius and the location is known only to NUL2. This document will be destroyed after the briefing. No notes, photographs, or audio recordings are to be made of this briefing.

TOP SECRET

PROJECT AQUARIUS

(TS//ORCON) (PRO//ORCON) (S//ORCON) Contains 34 volumes of documented information collected from the beginning of the United States investigation of Unidentified Flying Objects (UFOs) and Identified Alien Crafts (IAC). The Project was originally established in 1954 by order of President Eisenhower, under control of NSC and NSD. In 1956, the project's name was changed from Project Green to Project Aquarius. The Project was funded by CIA confidential funds (non-appropriated). The Project was originally classified SECRET but was upgraded to its present classification in Dec 1959 after Project Blue Book was closed. The purpose of Project Aquarius was to collect all scientific, technological, medical and intelligence information from UFO/IAC sightings and contacts with alien life forms. This orderly file of collected information was used to advance the United States Space Program.

(TS//ORCON) The preceding briefing is an historical account of the United States Government's investigation of Aerial Phenomena, Recovered Alien Aircrafts and Contacts with Extraterrestrial Life Forms.

TOP SECRET

EXECUTIVE SUMMARY

(TS//SI//NF) In Jan 1947, a civilian pilot flying over the Cascade mountains of Washington State observed nine flying discs. (later referred to as UFOs). The Commander, Air Technical Intelligence Center of the then Army Air Force, became concerned and ordered an inquiry. This was the beginning of the United States involvement with UFO investigations. In 1947 an aircraft of extraterrestrial origin crashed in the desert of New Mexico. The craft was recovered by the military. Four Alien (non-human) bodies were recovered in the wreckage. These were found to be creatures not related to human beings. (Actual) In 1948 another Alien aircraft crashed in the United States and was recovered by the military. One Alien of extraterrestrial origin survived. This surviving Alien was male and called itself, "EBC". The Alien was interrogated by military intelligence personnel at a base in the United States. Language was translated by means of picture-words. EBC was reported to be from a planet in the Zeta Reticuli star system, 15 light years from Earth. EBC lived until Jan 25, 1952 when he died. The time period EBC was alive is believed to be the time period of the origin of the universe. (Actual) EBC was the first of a new race of beings to be discovered on Earth.

TOP SECRET

(TS//ORCON) The recovery of Alien aircrafts lead the United States to an intensive investigative program to determine whether these aircraft posed a threat to our national security. In 1947, the newly created Air Force initiated a program to investigate incidents involving UFOs. The program was conducted under three different code names: Grudge, Sign and finally Blue Book. The primary mission of the Air Force program was to collect and analyze all reported sightings or incidents involving UFOs and determine whether the information could be interpreted as having any bearing on the security of the United States. This information was evaluated with the idea of using the gained data to advance our own space technology and future space programs. 70 percent of the UFO sightings reports analyzed by the Air Force, were considered hoaxes, explained phenomena or natural astronomical objects. The other 30 percent were considered legitimate Alien sightings and/or incidents. However, not all UFO sightings or incidents were reported under the Air Force program. In 1952, Project Blue Book was initiated by order of President Eisenhower, who believed the UFOs posed a threat to the national security of the United States. Project Blue Book, which was active until 1966, was a parallel reporting system for UFO sightings. Reports collected under Project Aquarius were considered as potential evidence of contacts with Alien Life forms. Project Aquarius was active from 1952 to 1966.

TOP SECRET

(TS//ORCON) In 1958 the United States recovered a third Alien aircraft from the desert of Utah. The aircraft was in excellent flying condition. The aircraft was apparently abandoned by the Aliens for some unexplainable reason. Alien life forms were found in or around the aircraft. The aircraft was considered a technological marvel by United States Scientists. However, the operating instructions of the aircraft were so complex that our scientists could not interpret their operation. The aircraft was stored in a top security area and analyzed throughout the years by our best aerospace scientists. The United States has a large volume of technological data from the recovered Alien aircraft. A detailed description and further information regarding the aircraft is contained in Atch 3.

A-1

TOP SECRET

1946. Several independent scientific investigations of the reports of the Air Force and CIA, were initiated during the era of Project Blue Book. It was decided that officially, the Air Force should end their investigation of UFOs. This decision was arrived at during the 1946 meeting (AEC-4) in Vassar. The Air Force was notified. Hence, the United States had established communication with the Allies. The United States felt relatively sure the Allies exploration of earth was not aggressive and hostile. It was also established that the Allies program did not directly threaten the security of the United States. Secondly, the public was beginning to believe that UFOs were real. The AEC felt this public feeling could lead to a national panic. The United States was involved in several active projects during this time period. It was felt that public knowledge of these projects would have jeopardized the future space program of the United States. Therefore, it was decided that an independent scientific study of UFOs would be needed to satisfy public curiosity. The final official report of the phenomena was accomplished by the University of Colorado in 1948. The study concluded that sufficient data did not exist to determine if the phenomena threatened the security of the United States. The Air Force was notified of the government and allowed the Air Force to officially end their investigation of UFOs.

See note.

A-1
TOP SECRET

(TS//SI//NF) When the Air Force officially closed Project Blue Book, Project Aquarius continued operation under control of HSC/NJ12. The investigations of UFO sightings and incidents had to continue in secrecy, without any public knowledge. The reasoning behind the decision was that if the Air Force continued its investigation of UFOs, eventually some unclassified information would be obtained by Air Force or defense department civilian officials, and the fact of Project Aquarius. Obviously (for operational security reasons) this could not be allowed. In order to continue the investigation of UFO sightings and incidents in secrecy, investigators from CIA/DCI and HJ12 were assigned to various governmental agencies with orders to investigate all legitimate reports of sightings and incidents. These agents are presently operating at various locations throughout the United States and Canada. All reports are filtered through HJ12 and sent indirectly to HJ12. These agents are collecting reports of UFO sightings and incidents occurring on or near sensitive governmental installations. It has been extremely interesting to note that many of the reported military sightings and incidents occur over military installations. Alien interest in our nuclear weapons can only be explained by the fact that a nuclear war on earth. The Air Force has been extremely concerned with the security of the nuclear weapons from Alien threat. It is believed that the Aliens are on an exploration of our planet. However, HJ12 continues to observe and report on all sightings and incidents. It is believed that the Aliens' future plans are to invade our planet.

TOP SECRET

(TS//ORCON) Most governmental documents pertaining to UFO sightings, incidents and governmental policies, including Project Blue Book, have been released to the public under FOIA or under various other release programs. MJ2 felt the remaining documents and information (not relating to Project Aquarius) relating to technological facts regarding Aliens medical matters, the fact that an Alien was captured alive and survived for three years under secrecy, can not be released to the public for fear the information would be obtained by SHIS. There was other information obtained from EdE that was deemed sensitive and not releasable to the public. Notably, Project Aquarius Volume IX, which pertains to tracing the Aliens first visitation of earth back some 5,000 years. EBE reported that 2,000 years ago his ancestors planted a human creature on earth to assist the inhabitants of earth in developing a civilization. This information was only vague and the exact identity or background information on this homo-sapien was not obtained. Undoubtedly, if this information was released to the public, it would cause a worldwide religious panic. MJ3 has developed a plan that will allow release of Project Aquarius, Volumes I-III. The release program calls for a gradual release of information over a period of time in order to condition the public for future disclosures. MJ3's briefing contains certain guidelines for future public releases.

A-1

TOP SECRET

(T1704000) In the 1976 MJ3 report (Atch 4), it was estimated the Alien technology was many thousands of years ahead of United States technology. Some scientists speculate that until our technology develops to a level equal to the Aliens, we cannot understand the large volume of scientific information the United States has already gained from the Aliens. This advancement of United States Technology may take many hundred of years.

TOP SECRET

SUB PROJECTS UNDER PROJECT AQUARIUS

1. (TS//ORCON) PROJECT HANCO: (PROWORD: RISK) Originally established in 1961. Its main purpose is to collect and evaluate medical information from the survivors of Alien crashes and the recovered Alien bodies. This Project medically examines and reports to the United States medical researchers with certain answers to the available information. (REF: CIA) (Terminated in 1974).

2. (TS//ORCON) PROJECT SIGMA: (PROWORD: MIDNIGHT). Originally established as part of Project Blue in 1959. Became a separate project in 1974. Its mission was to establish communication with Aliens. This Project met with positive success when in 1965, the United States established primitive communications with the Aliens. In January 1968, a USAF intelligence Officer met two Aliens at a pre-announced location in the desert of New Mexico. The contact lasted for approximately three hours. Based on the Alien's language given to us by CIA, the USAF intelligence officer managed to exchange basic information with the two Aliens. This project is continuing at an Air Force base in New Mexico. (REF: CIA)

(TS//ORCON)

1972 THE MISSION
